# Earnings Release

**6M 2026**

*January 1, 2026 to June 30, 2026*

**August 21, 2026**

## Highlights & Recent Developments

### **Pik on the 2034 Redeemable Notes**

On June 10, 2026, Clisa paid in kind the interest due for the interest period ending on that date, through the issuance of additional 2034 Redeemable Notes in an aggregate principal amount of U.S.\$2,624,500 that were delivered to each holder of 2034 Redeemable Notes on a pro rata basis. Therefore, the outstanding principal amount of the 2034 Redeemable Notes is U.S.\$ 77.6 million as of the date of this Earnings Release.

Interest on the 2034 Redeemable Notes accrues at a rate of 7.00% per annum and is payable on June 10 and December 10 of each year.

### **New construction projects awarded**

In July 2026, a joint venture in which BRH holds an 80% participation, was awarded a contract with the Province of Cordoba for the first stage of a comprehensive improvement plan for the water supply system of the City of Córdoba.

This project is partially financed by the CAF – Development Bank of Latin America and the Caribbean and includes (i) expansion works to increase the treatment capacity of Los Molinos plant from 2 m<sup>3</sup>/s to 5 m<sup>3</sup>/s, aimed at ensuring a reliable water supply in the southern sector of the city until 2050, together with (ii) the rehabilitation of the existing Northern water channel and associated ancillary works, that will significantly reduce water losses.

The awarded contract would represent estimated revenues in an amount of over AR\$ 84,000 million, expressed in December 2025 prices, and is subject to adjustment by inflation. This project has been included in our backlog.

- Revenues of our Waste Management segment increased AR\$ 9,836 million y/y (+2.6%) to AR\$384,049 million:
  - Landfill revenues grew AR\$ 11,294 million (+6.4%) due to an increase (i) in tariffs in real terms because the tariff adjustment mechanisms reflect the evolution of each company's actual cost structure, which does not necessarily align with the CPI used to restate 2025 figures to June 2026 prices for comparative purposes, (ii) in the volume of disposed waste in Norte III, and (iii) an increase in landfill degassing services.
  - Urban waste management revenues increased AR\$ 2,708 million (1.9%) mainly in Neuquen, due to the start in the second half of 2025 of the new 8-year contract that includes additional services. This increase was partially offset by a decrease in the Buenos Aires contract, mainly because (i) the methodology for estimating final price adjustments was revised, (ii) a reduction of additional services, and (ii) the tariff adjustment mechanisms reflect the evolution of each company's actual cost structure, which does not necessarily align with the CPI used to restate 2025 figures to June 2026 prices for comparative purposes, and are not synchronized with inflation, since there is a gap between the time of the cost increases and the time prices are contractually adjusted.
  - Waste valorization revenues decreased AR\$ 4,225 million (-14.9%) due to a decrease in the volume of waste processed in the mechanical and biological treatment plant due to maintenance of the plant.
- Adjusted EBITDA in our Waste Management segment decreased AR\$ 3,955 million (-5.9%) to AR\$ 63,569 million in 6M26, mainly due to the impact of the revision of the methodology for estimating final price adjustments in the Buenos Aires contract, as well as higher operating costs at the Norte III landfill.
- Adjusted EBITDA margin decreased to 16.6 % in 6M26 from 18.0 % in 6M25.

Figures in this report are expressed in millions of Argentine Pesos (AR\$), except when noted otherwise

- Revenues in our Construction segment increased AR\$ 11,184 million y/y (+3.8%) to AR\$ 308,069 million in 6M26:
  - BRH's revenues grew AR\$ 28,204 million (+28.6%), mainly due to the start of public works in the Province of Córdoba, such as the construction of two sections of National Road No19 Highway, as well as an acceleration in the execution of works in Peru and projects in Argentina that restarted in 2025. This increase was partially offset by the finalization of certain private projects that were executed during 2025.
  - BRH Paraguay's revenues increased AR\$ 23,014 million (+79.5%) mainly due to (i) increased activities mainly driven by the rebuilding of the Company's backlog in Paraguay derived from a diversification process started in 2025 and (ii) the depreciation in real terms of the peso against the Paraguayan currency, that increased revenues in peso terms.
  - Sehos's revenues increased AR\$ 2,326 million (+10.7%) mainly due to increased activity.
  - Haug's revenues decreased AR\$ 42,360 million (-28.7%) mainly due to the finalization of certain projects in Argentina that were executed during 2025.
- Adjusted EBITDA in our Construction activities increased AR\$ 2,570 million (+12.0%) to AR\$ 23,909 million in 6M26, mainly in BRH due to better margins of projects in progress during 6M26 in contrast to those projects executed in 6M25. This increase was partially offset by a decrease in Haug.
- Adjusted EBITDA margin increased to 7.8% in 6M26 from 7.2% in 6M25.

- (1) Backlog figures as of December 2025 have not been adjusted for inflation.  
 (2) Water Treatment includes drinking water and wastewater treatment plants and urban drainage systems.  
 (3) Water Infrastructure includes dams, ports, aqueducts, water channels, river expansion works, etc.

- As of June 30, 2026, our total Construction backlog was AR\$ 1,270,868 million, a 3.0% increase over December 31, 2025.
  - This variation is expressed in nominal terms, since backlog figures as of December 31, 2025 have not been adjusted for inflation.
  - Figures include BRH's construction subsidiaries, affiliates and joint ventures, at BRH's portion of revenue in these entities where applicable.
  - Figures reflect prices with the latest price adjustments approved by the clients. Therefore, they do not reflect accumulated inflation since then. According to our estimations, there are price adjustments for works in Argentina still pending approval for approximately AR\$ 104,586 million as of June 30, 2026.
- At the date of this Earnings Release:
  - Inactive and unstarted projects represent ~10% of the Company's total backlog.
  - Some national public works in our portfolio that the Argentine Government had decided to stop, such as the construction of the Villa María By-Pass Road, the construction of a highway in National Road N°9 in the Province of Santiago del Estero and the construction of the Gran Tulum water channel, have restarted but at a significantly slower pace of execution. They represent ~ 7% of our backlog.
  - Works in progress represent ~83%

Figures in this report are expressed in millions of Argentine Pesos (AR\$), except when noted otherwise

- Revenues in our Transportation segment increased AR\$ 1,547 million y/y (+0.5%) to AR\$ 301,410 million in 6M26:
  - Emova's remuneration is based on the amount of commercial car-kilometers ("CKM"). The CKM is a measure of rail transport supply representing the total kilometers traveled by all passenger-carrying rail cars. Emova's revenues for the operation of the Buenos Aires Subway increased AR\$ 4,940 million (+2.0%) mainly driven by higher CKM, reflecting an increase in the number of trains in service. This increase was partially offset by a decrease in the CKM price YoY in real terms, since the price adjustment mechanism reflects the evolution of Emova's actual cost structure which differs from CPI, the index used to restate 2025 figures to June 2026 prices for comparative purposes.
  - Benito Roggio Transporte's revenues increased AR\$ 1,841 million (+31.3%) due to the start on new works on the railway networks.
  - Metrovias' revenues for the operation of the Urquiza Railway declined AR\$ 3,305 million (-8.4%) since the price adjustment mechanism for subsidies, which reflect Metrovias' actual cost structure, does not necessarily align with the CPI that is used to restate 2025 figures to June 2026 prices for comparative purposes.
  - Revenues of Benito Roggio Ferroindustrial decreased by AR\$ 1,930 million (-85.5%), primarily due to a greater share of revenues from repair works for Emova in 6M26, which are eliminated in the consolidation process.
- Adjusted EBITDA in our Transportation segment increased AR\$ 10,242 million to AR\$ 11,889 million in 6M26 (+622.1%), primarily driven by (i) the increase in CKMs mentioned above, (ii) temporary slowdown in rolling stock maintenance expenses following the comprehensive maintenance program undertaken during the first years of the concession, and (iii) because results no longer reflect a one-off update in software license agreements related to the Urquiza Railway that was recognized in 6M25.
- Adjusted EBITDA margin increased to 3.9% in 6M26 from 0.5% in 6M25.

Figures in this report are expressed in millions of Argentine Pesos (AR\$), except when noted otherwise

Metrovias and Emova carried 98.8 million paying passengers during 6M26, a comparable figure to that of 6M25.

Ridership is still below pre-pandemic levels (-41.3% vs 2019).

- Revenues of our Water Supply Services segment increased AR\$ 7,586 million (+9.2%) to AR\$ 90,221 million for 6M26.
  - The tariff increases approved by the concession grantor in the last twelve months (8.8% as of August 2025, 8.3% as of November 2025, 5.3% as of January 2026, 7.2% as of April 2026 and 0.9% as of May 2026) allowed revenues to increase above the inflation recorded during that period.
  - This discrepancy arises because the tariff adjustment mechanisms (i) are not synchronized with inflation, as they compensate for cost increases that occurred between February 2025 and January 2026, and (ii) reflect the evolution of ACSA's actual cost structure, which does not necessarily align with the CPI used to restate 2025 figures to June 2026 prices for comparative purposes.
  - A significant portion of the tariff increases during 6M26, and its corresponding increase in revenues, was due to the Province of Cordoba increasing above inflation the fee for water extraction and distribution, which is a cost to the company. In accordance with the concession contract, the impact of these fees must be recognized on the cost structure of the concession and, consequently, on the tariffs paid by users.
- Adjusted EBITDA in our Water Supply segment increased AR\$ 3,180 million (+26.9%) to AR\$ 14,999 million in 6M26, mainly because of a decrease in real terms in provisions for contingencies related to damaged property.
- Adjusted EBITDA margin increased from 14.3% to 16.6%.

**Important:** In inflationary environments, interest rates and foreign exchange rates somehow include a premium to compensate for inflation. The portion of interest income/expense as well as the portion of income/expenses generated by assets/liabilities for changes in FX rate that compensates for inflation have been segregated and offset against the gain or loss because of inflation on net monetary position in these financial statements. Therefore, these line items now reflect figures in real terms.

### • Financial income

Financial income increased AR\$ 22,424 million (+95.7%) to AR\$ 45,845 million in 6M26, primarily due to an AR\$ 42,915 million increase in foreign currency exchange differences generated by liabilities, that had generated a loss in 6M25, but which generated a gain in 6M26 due to the appreciation in real terms of the Peso.

This increase was partially offset by:

- an AR\$ 15,148 million decrease in interest generated by assets.
- an AR\$ 4,584 million decrease in income due to the effect of inflation on the net monetary position, that had generated a gain in 6M25, but which generated a loss in 6M26;

Figures in this report are expressed in millions of Argentine Pesos (AR\$), except when noted otherwise

- **Financial expenses**

Financial expenses decreased AR\$ 14,279 million (-21.9%) to AR\$ 50,819 million in 6M26, mainly explained by:

- an AR\$ 6,167 million decrease in interest expenses, mainly because of a decline in indebtedness as compared to 6M25;
- an AR\$ 8,289 million decrease in other financial expenses;
- an AR\$ 2,195 million decrease in foreign currency exchange differences generated by liabilities, that had generated a loss in 6M25, but which generated a gain in 6M26.

These decreases were partially offset by an AR\$ 1,599 million increase in losses for foreign currency exchange differences generated by assets, due to the appreciation of the Peso.

- **Share of net profit of associates and joint arrangements accounted for under the equity method**

Share of net income of associates and joint arrangements accounted for under the equity method decreased Ps.468 million to AR\$ 1,372 million in 6M26. This decrease was primarily due to a decrease in the consortiums in which BRH Paraguay participates, due to a decline in margins, and an increase in the net loss contributed by Autovía del Mar S.A. These decreases were partially offset by an increase in the net income contributed by Covisur, due to certain compensations that are aligned with the evolution of the relevant toll rates.

- **Income Tax**

Income tax expenses increased AR\$ 6,560 million to AR\$ 14,447 million loss in 6M26. This increase was mainly due to an increase in the taxable income of Cliba and Metrovias, and was partially offset by a decrease in BRH.

- **Net income for the period**

Net income for the period reached AR\$ 42,964 million in 6M26, an AR\$ 48,053 million increase as compared to a net loss of AR\$ 5,089 million in 6M25.

### 3. Financial indebtedness

\* Dec-25 figures have been restated to June 2026 prices.

- Total Financial Debt amounted to AR\$ 447,512 million as of June 30, 2026, an AR\$ 25,335 million (-5.4%) decrease in real terms, as compared to December 31, 2025.
- Figures as of December 31, 2025, disclosed for comparative purposes, have been restated to June 2026 prices, adjusted by the consumer price index (CPI) reported by the Argentine Bureau of Statistics, as required by Argentine accounting boards. CPI increased 16.8% from December 2025 to June 2026.
- Debt denominated in foreign currency decreased AR\$ 18,169 million, or 5.0% in real terms, mainly driven by a 12.8% decrease in the FX rate in real terms in 6M26. This decrease was partially offset by an increase in debt incurred by Clisa's subsidiaries in Peru and Paraguay due to working capital requirements.
- Debt arising from factoring transactions with recourse in Argentine Pesos decreased AR\$ 20,119 million, or 43.9% in real terms, partially compensated by an AR\$ 12,953 million, or 20.2%, increase in Other Debt due to short-term working capital financing.
- 77.1% of total debt as of June 30, 2026 was denominated in foreign currency, mainly US dollars.

## Notes and Disclaimer

### Financial Information

The consolidated financial statements of Clisa and subsidiaries have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board (IASB).

### Capitalized term and acronyms

Capitalized terms and acronyms used but not defined in this Earnings Release shall have the meanings assigned thereto in our Consolidated Financial Statements for the three-month period ended June 30, 2026.

### IAS 29 "Financial Reporting in Hyperinflationary Economies"

#### Brief description of the restatement procedures

IAS 29 requires that the financial statements of an entity whose functional currency is that of a hyperinflationary economy should be stated in terms of the measuring unit current at end of the reporting period.

In short, IAS 29 establishes that monetary items (such as cash or trade receivables) are not restated because they are already expressed in terms of the monetary unit current at the end of the reporting period. Assets and liabilities subject to adjustments in accordance with specific agreements, shall be restated based on these agreements. Non-monetary items (such as property, plant and equipment, or inventories) that are carried at amounts current at the end of the reporting period, such as net realizable value or others, shall not be restated. All other non-monetary assets and liabilities are restated by applying a general price index.

All items in the statement of comprehensive income must be also adjusted for inflation, by applying the change in the general price index from the dates when the items of income and expenses were initially recorded in the financial statements.

Every item that must be restated, is restated against gain or loss on the net monetary position. However, it must not be forgotten that, in fact, a loss on the net monetary position derives from the loss of purchasing power that affects an entity holding an excess of monetary assets over monetary liabilities in a period of inflation. On the other hand, a gain on the net monetary position is the result of the gain of purchasing power of an entity with an excess of monetary liabilities over monetary assets.

The gain or loss on the net monetary position is registered as profit or loss under the "Financial Income" and "Financial Expenses" line items of the Income Statement, respectively, and must be disclosed separately.

Comparative information disclosed in financial statements has also been restated to the level of prices of June 30, 2026.

### Presentation of Non-IFRS Information

We report our financial results in accordance with IFRS. However, we have included in this Earnings Release certain financial measures and ratios that are not recognized financial measurements under IFRS, which we believe gives investors information useful to assess our performance. Adjusted EBITDA is not a financial measure recognized by IFRS and should not be interpreted as an alternative measure of operational results or cash generated by the operations. "Adjusted EBITDA," a measure used to evaluate ongoing performance, refers to net income (loss) plus financial results, net, plus/less income tax, plus depreciation and amortization, less/plus share of net profit/loss of associates and joint arrangements accounted for using the equity method, and plus goodwill impairment. Adjusted EBITDA may also be measured as revenue from contracts with customers less cost of providing services, less administrative expenses, less selling expenses and other operating expenses, plus/less other operating income and expenses, net, plus depreciations and amortizations. The measurements of Adjusted EBITDA contained herein are not defined under IFRS, are not measures of operating profit, operating performance or liquidity presented in accordance with IFRS and are subject to important limitations. Adjusted EBITDA does not have a standardized meaning and may not be comparable to those used by other companies. Accordingly, the measurements of Adjusted EBITDA contained herein may not be calculated in the same manner as similarly titled measurements used by other companies which may limit their usefulness as a comparative measurement. Because of these limitations, the measurements of Adjusted EBITDA contained herein should not be considered a measurement of discretionary cash available to us to invest in the growth of our business or as a measurement of cash that will be available to us to meet our obligations, nor should they be construed as alternatives to other titled measures determined in accordance with IFRS.

### Rounding

Certain figures included in this Earnings Release have been rounded for ease of presentation. Percentage figures have not been calculated in all cases based on such rounded figures but based on such amounts prior to rounding. For this reason, percentage amounts in this Earnings Release may vary from those obtained by performing the same calculations using the figures in Clisa's Audited Consolidated Financial Statements and Clisa's Unaudited Condensed Interim Consolidated Financial Statements, as applicable. Certain other amounts that appear in this Earnings Release may not sum due to rounding.

## Forward – looking Statements

This Earnings Release may contain statements that constitute “forward-looking statements”. The words “believe,” “could,” “may,” “estimate,” “continue,” “potential,” “anticipate,” “intend,” “expect,” “will,” “should” and “plan,” among others, are intended to identify forward-looking statements. Forward-looking statements are not guarantees of performance. They involve risks, uncertainties and assumptions because they relate to future events and, therefore, depend on circumstances that may or may not occur in the future. Forward-looking statements include, but are not limited to, statements regarding our officers’ intent, belief or current expectations with respect to, among other things, the use of proceeds of this offering, our financing plans, trends affecting our business, the impact of competition and future plans and strategies. Our future results may differ materially from those expressed in or suggested by these forward-looking statements. Many of the factors that will determine these results are beyond our ability to control or predict. Investors are cautioned not to put undue reliance on any forward-looking statements. Forward-looking statements speak only as of the date they were made and neither the managers nor we undertake to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
